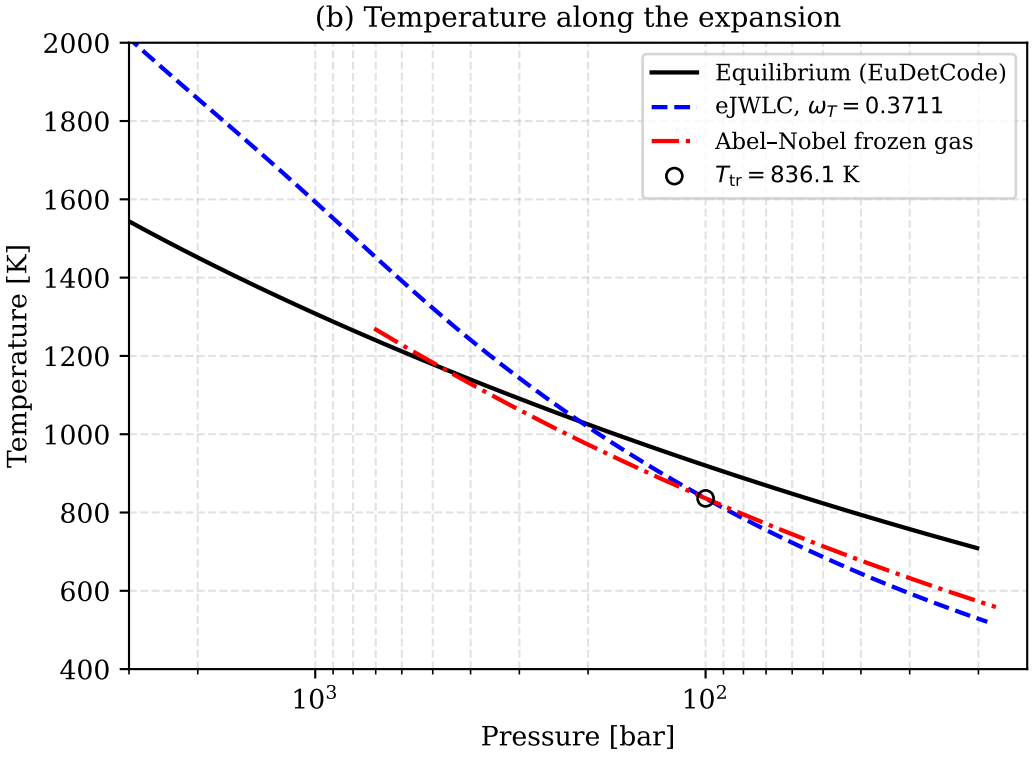
(a) Isentropes near the transfer pressure
Equilibrium products (EuDetCode)
eJWLC isentrope
Abel–Nobel frozen gas, through transfer state
Transfer state
Pressure [bar]
Specific volume [dm³/kg]



(b) Temperature along the expansion
Equilibrium (EuDetCode)
eJWLC, ω_T = 0.3711
Abel–Nobel frozen gas
T_tr = 836.1 K
Temperature [K]
Pressure [bar]
